

# LifeSync

## Clarity you need to help bring your plan to life

### Account Aggregator and eMoney

What do you really want to accomplish with your money? Do you have enough, not enough, or more than enough to accomplish what is important to you? Your financial advisor can help you answer those questions through the LifeSync® experience. LifeSync provides an approach in an effort to align your financial objectives to your personal aspirations to help create your personal path to the life you want to live.

LifeSync leverages many tools and capabilities to help you maximize the impact your money will have on your goals and aspirations. Our Account Aggregator tool allows you to organize your money and provide you a better understanding of where you are right now in your financial life. You can then align your money with what you want to accomplish with the help of the eMoney Advisor® tool. Account Aggregator plus eMoney can create a foundation for a successful path to help you reach your goals.

### Account Aggregator — Get organized and view your financial picture

If your assets are spread across a number of places, it can be challenging to get a clear view of your finances. The LifeSync experience can help with the Account Aggregator tool. Account Aggregator helps make it easier for you to get a complete picture of your net worth across all of your financial institutions, including Wells Fargo & Company accounts.

Once you take the first step of gathering your full financial picture, then you can begin to determine what goals you want to accomplish with your money. From there, your advisor can help make your money-to-goals alignment a reality with eMoney.

## Live life and gain confidence — Contact your advisor today

LifeSync can help you build your confidence by leveraging Account Aggregator and eMoney. They can help you align your values with your financial priorities and make sure they stay in sync over time to help maximize the impact of your money. Contact your advisor today to get started.

**IMPORTANT:** The projections or other information generated by eMoney regarding the likelihood of various investment outcomes are hypothetical in nature, do not reflect actual investment results and are not guarantees of future results. Results may vary with each use and over time.

Based on accepted statistical methods, eMoney uses a mathematical process used to implement complex statistical methods that chart the probability of certain financial outcomes at certain times in the future. This charting is accomplished by generating hundreds of possible economic scenarios that could affect the performance of your investments. Using Monte Carlo simulation this report uses up to 1000 scenarios to determine the probability of outcomes resulting from the asset allocation choices and underlying assumptions regarding rates of return and volatility of certain asset classes. Some of these scenarios will assume very favorable financial market returns, consistent with some of the best periods in investing history for investors. Some scenarios will conform to the worst periods in investing history. Most scenarios will fall somewhere in between.

Bank products and services are available through Wells Fargo Bank, N.A., Member FDIC. Wells Fargo Wealth & Investment Management (WIM) is a division within Wells Fargo & Company. WIM provides financial products and services through various bank and brokerage affiliates of Wells Fargo & Company.

Investment products and services are offered through Wells Fargo Advisors, a trade name used by Wells Fargo Clearing Services, LLC, and Wells Fargo Advisors Financial Network, LLC, Members SIPC, separate registered broker-dealers and non-bank affiliates of Wells Fargo & Company.
