TEAM SPOTLIGHTHappy holidays from our team!

Is now a good time to invest?

Susan Paolo, MBA
First Vice President – Investment Officer

nce upon a recent December, there was an investor named Chris. The stock market was tanking, and Chris was stressed. She decided to liquidate her investment portfolio and wait until the market bounced back. The next day, the market had one of the biggest Christmas Eve crashes ever seen. Chris was ecstatic that she had avoided the big drop.

But then, on December 26th, came one of the market's best days in nearly 10 years. Over the next few weeks, the market readily regained its December losses and continued to move steadily upward. After all this time waiting, Chris had locked in her short-term losses and was now faced with an unexpectedly large tax bill on her long-term gains.

So, what can we learn from Chris' mistakes? That timing the market doesn't work – investing is about time in the market.

SO, TO ANSWER OUR QUESTION, "IS NOW A GOOD TIME TO INVEST?" – YES, BUT YESTERDAY PROBABLY WOULD HAVE BEEN BETTER.

Investment and Insurance Products are:

- ► Not Insured by the FDIC or Any Federal Government Agency
- ▶ Not a Deposit or Other Obligation of, or Guaranteed by, the Bank or Any Bank Affiliate
- ▶ Subject to Investment Risks, Including Possible Loss of the Principal Amount Invested

The truth is, that every day you wait can cost you in the future. This is due primarily to two things:

First, the market has historically trended upward over the last 100 years, creating potential to appreciate your assets over time. Second, the power of compounding returns can create "math magic" when your investments earn more that money earns more money.

So even if your investments fall in the short term, the potential longterm gains may be able to make up for any early disappointments.

Furthermore, investors have often been able to recoup their losses during a volatile market if they simply stay invested and regularly keep investing. Since no one knows when the best time to buy or sell will be, investing regularly (known as "dollar cost averaging") takes the guesswork out of the process. Imagine if you invested your money in the beginning of 2008. If you had sold out in 2009, you'd be sad. But if you had stayed the course and invested regularly, you'd have recovered in less than two years.

The bottom line is, it's better to stay invested and don't stop buying.

Past performance is not an indication of future results.

Dollar cost averaging does not guarantee a profit or protect against loss in a declining market. Investors should consider their ability to continue investing through periods of low price levels.

Hollight on Bridge Street EVENT

Thanks to all who joined us for dinner and friends at Bridge Street! ◆

BENEFICIARY BENEFITS

WE BELIEVE IT IS A GOOD IDEA TO CONSIDER REVIEWING YOUR BENEFICIARY DESIGNATIONS ON YOUR ACCOUNTS PERIODICALLY. THIS MIGHT BE SOMETHING TO DO ONCE A YEAR OR MAYBE WHEN YOU HAVE A CHANGE IN YOUR FAMILY.

CONSIDER THE FOLLOWING WHEN REVIEWING YOUR BENEFICIARIES:

WHEN DID YOU LAST UPDATE YOUR RETIREMENT ACCOUNT BENEFICIARIES?

Consider if things have changed in your family – for example, we've had clients sell or purchase properties, which causes clients to adjust their accounts to keep things fair. Have you gifted or made a loan to family members and need to make an adjustment?

DO YOU HAVE PRIMARY AND CONTINGENT BENEFICIARIES LISTED? AND WHAT DO THESE TERMS MEAN?

Primary is your first beneficiary, and contingent is a backup in case something has happened to the primary. You should consider always having a primary and a contingent beneficiary, just in case.

SHOULD YOU NAME YOUR BENEFICIARIES PER STIRPES? AND WHAT DOES THIS TERM MEAN?

"Per stirpes" means that if something happens to your beneficiary, then their next of kin would receive the assets. How this impacts your overall estate plan should be considered.

ARE ANY OF THE BENEFICIARIES MINORS?

If they are, you will need to know if there are legal ramifications of them inheriting these assets. You may also determine when you would want them to have access to your assets (i.e., when they become 18 years old).

DO YOU HAVE YOUR ESTATE OR A TRUST LISTED AS A BENEFICIARY?

Are there tax implications that will go along with this decision?

DO THESE DESIGNATIONS COORDINATE WITH YOUR OVERALL ESTATE PLANNING GOALS?

Beneficiary designations can happen without considering your will. You should always consider your overall estate plan when you are naming beneficiaries.

DO YOUR BENEFICIARIES KNOW THEY HAVE BEEN NAMED?

This can be complicated and may require some delicate discussions.

Wells Fargo Advisors is not a legal or tax advisor. However, we will be glad to work with you, your accountant, tax advisor and or lawyer to help meet your financial goals.

Any estate plan should be reviewed by an attorney who specializes in estate planning and is licensed to practice in your state.

Margaret A. Gilliland Senior Registered Client Associate

WHAT YOU'LL NEED:

For the cake:

1 cup of chopped nuts

1 box yellow cake mix

4 eggs

½ cup light rum

½ cup water

½ cup canola oil

1 box vanilla instant pudding (3 oz)

For the rum glaze:

1 cup sugar

1 stick butter or margarine

¼ cup rum

¼ cup water

WHAT YOU'LL DO:

Preheat the oven to 325 degrees.

Grease and flour a Bundt pan. Spread the chopped nuts on the bottom of the pan.

Mix the remaining cake ingredients together in a separate bowl and pour into the pan. Bake for 1 hour.

In a separate saucepan, boil the rum glaze ingredients for 5 minutes.

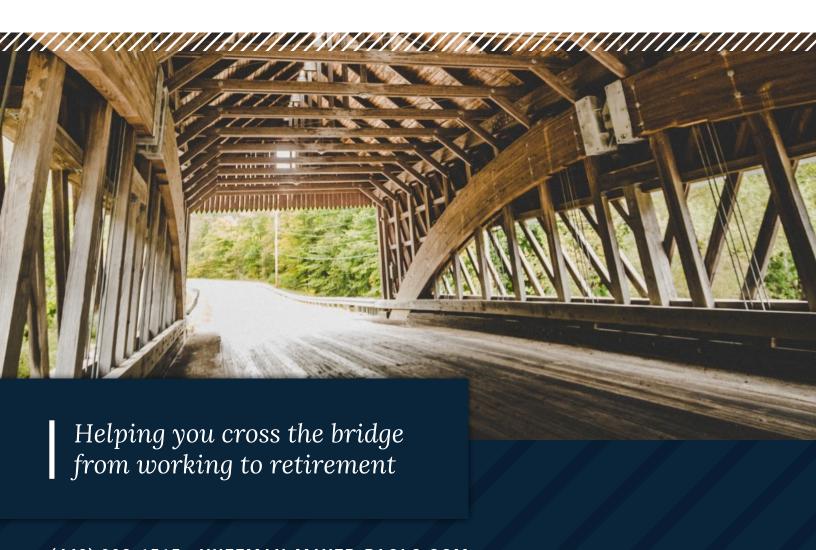

As soon as you remove the cake from the oven, pour the rum glaze mixture over the cake while it is still in the pan. Let cool for 10 minutes, then invert the pan over a rack. With the cake still inside, cool for 20 minutes. Then, remove the cake from the pan. •
