STRATEGY

What is the Tactical Tilt Strategy Strategy?

- Designed using the research and sector weightings of Dorsey Wright
- Based on a relative strength analysis
- Comes from understanding the forces of supply and demand
 - *The same forces that affect prices in the supermarket can also have some effect on prices in the stock market.*
 - *Stocks, sectors, countries and asset classes move in and out of favor just like produce in the supermarket.*

HOW DO WE USE RELATIVE STRENGTH ANALYSIS?

- *Asset Class vs. Asset Class Analysis*
- *Sector vs. Sector Analysis*
- *Peer vs. Peer Analysis*

ANALYSIS BEGINS WITH 6 BROAD ASSET CLASSES

- *Fixed Income*
- *Commodities*
- *International Stocks*
- *US Stocks*
- *Foreign Currencies*
- *Cash and cash alternatives*

DYNAMIC ASSET LEVEL INVESTING, 2008-2010

For additional information, including specific manager details and firm information, please see a copy of the firm's advisory agreement.

Please carefully review the Wells Fargo Advisors advisory disclosure document for a full description of our services, including fees and expenses. Additional fees may apply in certain circumstances. Please contact a Financial Advisor for more specific details about additional expenses that may be incurred in this type of program and for a list of eligible and excluded assets.

Prospective clients should carefully review the Wells Fargo Advisors advisory disclosure document for a full description of our services, including fees and expenses.

“TILT” STRATEGY

Exchange Traded Funds are subject to risks similar to those of stocks. Investment returns may fluctuate and are subject to market volatility, so that an investor's shares, when redeemed or sold, may be worth more or less than their original cost.

PM-11272026-6196738.2.1

EXCHANGE TRADED FUNDS

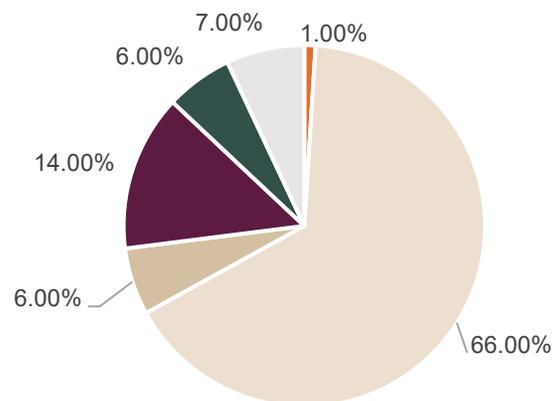

- LIQUID Trade on exchanges throughout the day
- TRANSPARENT Holdings always known
- LOW COST Typically lower than mutual funds
- DIVERSIFIED Avoids individual stock/bond risk
- TAX EFFICIENT Uses redemption process
- ACCESS Exposure to multiple asset classes
- INDEXING Track both passive and rules-based
- Do not use any that are inverse or leveraged

WHY EVERYONE ELSE DOESN'T DO IT

- Forces us to do what is uncomfortable
- Hold onto the Winners- Sell the Losers
- Makes us think about the Strategy as a whole, not position by position
- Makes it tough to hold the course at market turning points
- We react emotionally during volatile markets
- Requires us to remain disciplined
- News media guides investor and advisor opinions and actions

The holdings list represents holdings in a representative account of the style as of the date shown above and is subject to changes without notice. The mention of a specific security recommendation or a solicitation for any person to buy, sell or hold a particular security. Portfolio shown is as of 7/23/2025 and subject to change. As PIM® portfolios are separately managed, the individual client account holdings will vary, perhaps significantly, from those listed on this factsheet. Information, such as industry sector allocation percentages and market capitalization allocation percentages, will also vary from the information listed on the factsheet. A client opening an account today may, or may not, be invested in securities or sectors based upon the percentages shown on this factsheet.. For the most recent portfolio composition please contact the PIM® Manager.

Technical analysis is based on the study of historical price movements and past trend patterns. There is no assurance that these movements or trends can or will be duplicated in the future.

Fredrick Salus acts as our group's Private Investment Program (PIM®) Portfolio Manager, and is authorized to make all discretionary decisions for advisory program accounts. Other team members referenced on this document provide support and assistance in the implementation of the investment strategy as outlined by the portfolio manager.

*Dividends are not guaranteed and are subject to change or elimination

As each Private Investment Management (PIM®) program account is individually managed, construction and ongoing management of portfolios may vary from those discussed in this Philosophy Statement.

The holdings list represents holdings in a representative account of the style as of the date shown above and is subject to change without notice. The mention of specific securities is not a recommendation or a solicitation for any person to buy, sell or hold a particular security.

Past performance is not indicative of future results, and there is no assurance that any investment strategy will be successful.

The PIM® Program is not designed for excessively traded or inactive accounts and are not suitable for all investors. Please carefully review the Wells Fargo Advisors advisory disclosure document for a full description of our services. The minimum account size for this program is \$50,000.

Wells Fargo Advisors is a trade name used by Wells Fargo Clearing Services, LLC, Member SIPC.
