

PIM Moderate

4th Quarter 2021

Shearwater Creek Wealth Advisors Investment Philosophy

Our investment philosophy focuses on helping clients reach their goals instead of chasing the highest return or “beating the market.” Using deliberately conservative assumptions, we engage clients in a multi-step process to prioritize which goals they value most. Next, we stress test multiple scenarios to set realistic expectations and manage risk. Having clear goals in mind at the outset allows us to determine how investments should be best positioned. After all, conservative planning and realistic goal setting can lead to sleeping better at night.

Portfolio Overview

PIM Moderate reflects a balanced growth & income strategy and is intended to fund intermediate term priorities (5-7 years.) PIM Moderate’s core target allocation is 60/40 stocks/bonds; however we may adjust this weighting significantly depending on market conditions. Similar to PIM Conservative, PIM Moderate is not required to be 100% invested at all times.
