

PIM Conservative Retirement

4th Quarter 2021

Shearwater Creek Wealth Advisors Investment Philosophy

Our investment philosophy focuses on helping clients reach their goals instead of chasing the highest return or “beating the market.” Using deliberately conservative assumptions, we engage clients in a multi-step process to prioritize which goals they value most. Next, we stress test multiple scenarios to set realistic expectations and manage risk. Having clear goals in mind at the outset allows us to determine how investments should be best positioned. After all, conservative planning and realistic goal setting can lead to sleeping better at night.

Portfolio Overview

PIM Conservative is designed to fund short-term liquidity needs (1-3 years.) The portfolio is invested primarily in high quality, income investments with a goal of providing modest income and maintaining stability. PIM Conservative is not required to be 100% invested at all times and may invest in cash and cash alternatives depending on market conditions.
